

**CANDIDATE FOR DIRECTOR
INDIAN WELLS VALLEY WATER DISTRICT**

NAME: PETER E. BROWN

AGE: 46

OCCUPATION: Landscape Contractor

Born and raised in the Indian Wells Valley, I've gained extensive experience and knowledge of our unique desert climate and needs. I have wide-ranging knowledge, licenses and certifications dealing with WATER and its aspects. I understand, FULLY, the challenging issues concerning our LOCAL & STATE water resources. I have successfully served you, as a director of the Indian Wells Valley Water District for the past 12 years. Besides being a ratepayer, I manage my own well and I understand the concerns and issues of private well owners. I have been self-employed for 26 years; I know what it takes to keep a business running in good and bad times. I design and install large irrigation systems so I understand piping and hydraulics. One of my greatest strengths is problem solving and working with others to achieve the best possible outcome. My primary focus will be to maximize the use of our current water supply through conservation, re-use and develop a program to use the brackish water located under our valley floor. This would greatly extend the sustainability of our existing supply. Managed properly, we can create a water supply for generations to come, but we must act now.
